1. 🌍 Introduction

1.1 The Meme Coin Problem

The crypto market has witnessed thousands of meme coins, but most fail due to:

- Rug pulls & liquidity theft
- Zero real roadmap
- Unfair pre-sales or insider allocation
- No inherent sustainability
- No branding outside crypto twitter

Investors want fun, but they also want **trust, safety, and purpose**.

1.2 The Aloha Solution

AlohaCoin introduces a new era of meme coins by combining:

- **Fair & Transparent Launch**
- **Anti-Whale Protection**
- **Automatic Deflation**
- **Real Marketing Strategy**
- **Vesting-Controlled Dev Wallets**
- **Community-Driven Expansion**

AlohaCoin is not just another meme coin — it is a **global lifestyle brand**.

- Project operations remain funded

4. 🛡️ Security, Safety & Trust Features

To demonstrate long-term commitment:

- **5% of supply locked** in a vesting contract
- **24-month linear release**

No unexpected dumps. No surprises. Fully transparent.

4.3 Liquidity Protection

AlohaCoin liquidity is:

- Locked via PinkSale/Unicrypt
- Visible publicly
- Non-removable until deadline

This is essential to avoid rug-pull accusations and build trust with early investors.

4.4 Anti-Bot & Fair Launch

Trading was disabled during deployment to avoid bot sniping. Liquidity was added publicly.
